

MAINTENANCE AND INSPECTION

Maintenance and inspection Contracts

An exceptional level of service.

Cramm Yachting Systems offers an extremely high level of service. Firstly, we offer our customers a long-term commitment in terms of maintenance, repairs where necessary, and the replacement of all parts without exception. All maintenance is carried out by highly qualified staff, guaranteeing the customer an exceptional level of operational security. At Cramm, boat owners can rest assured that maintenance is in the best of hands.

Cramm Yachting Systems offers 3 types of maintenance:

- Corrective maintenance
- Preventative maintenance
- Inspective maintenance with a view to guarantee renewal after 5 years, budgeting, refits and the calculation of operation costs.

Rapid maintenance service.

Cramm maintenance offers a 99.9 percent guarantee of operational security. In the event that something should fail to work properly, our in-house team of specialised Cramm technicians will be on site within 24 to 48 hours to solve the problem. These specialists have all-round expertise in their specific field. This means they are also trained to carry out maintenance of other brands or equipment from other suppliers.
